

PACKING INVENTORY LIST

Use this list as you pack your boxes and you will avoid the frustration of being unable to find those important items you need throughout your move. Be as detailed or as general as you would like. If there are numerous items in one box that you want to jot down, you can add "sub lists" if you choose to go into more detail. (i.e. "See List A for contents of this box") Hint: this list can later help in creating a detailed home inventory for personal property insurance purposes.
